

Is There a Code to Open the Gate for Deliveries?

If you're expecting a delivery or having work done at your unit, it's important to know how access to the property is handled. At Country Club Shadows, there isn't a gate code for deliveries or service providers.

Resident Responsibility

The rules clearly state that it's the homeowner's or resident's responsibility to arrange access for any vendors or service people. This means you'll need to meet them at either the pedestrian gate or the vehicle entrance gate.

Guiding Vendors and Service Providers

It's also your responsibility to show them where to park once they're on the property. This helps ensure that vehicles don't block other residents or violate parking regulations.

By taking an active role in coordinating access, you can help ensure a smooth process for deliveries and services while respecting the community's rules.
